

Hot Tips for a successful Art on a Plate project:

Wash hands first and no snacks while drawing as sticky fingers can ruin your plate's processing. Ensure the drawing surface is also clean.

Use only WASHABLE (water based), FELT TIP PENS/TEXTA'S.

The following pens/paint **CANNOT** be used:

- Fluorescent / highlighter pens
- Gold or Silver pens
- Colour change pens
- Crayons
- Oil Paint
- Paint or Fluorescent paint
- Pastels
- Coloured pencils
- Sticky tape
- Post it Notes
- White out/ Tipex
- Glue
- Photos
- Stickers

You **CAN** also use:

- Normal ink stamps e.g. smiley faces
- A light lead pencil for outlining
- Hand and foot prints are best done using water based ink stamp pads.

Please note that if you use watered down paint (or any of the other products on the 'do not use' list we will scan and print your drawings however, we cannot guarantee that the colours will be as bright as the original. For further clarification, please call us

Write, draw or colour on ONE SIDE of the drawing paper only. Don't fold the drawings.

Keep words and important parts of the drawing 3cm from the edge of the drawing paper. Anything drawn in this area may be left off the plate or become smudged during processing.

Please note ordering multiple plates off one drawing are possible, however these will be made off scanned images and a slight colour variation may result.

We encourage supervision of children during the project; specifically include all their important details such as names and dates on their drawings, so that the plates become a memento of a point in time.
